## About Bluetooth® Technology

Bluetooth is a technology for wireless communication between devices.

Bluetooth technology is based on a radio receiver and transmitter built into a tiny microchip, one of which is incorporated into this product and the other is in a compatible mobile phone.

Bluetooth enables wireless connections between a device and a mobile phone within a radius of 10 meters of each other, without a physical cable or line-of-sight connection.

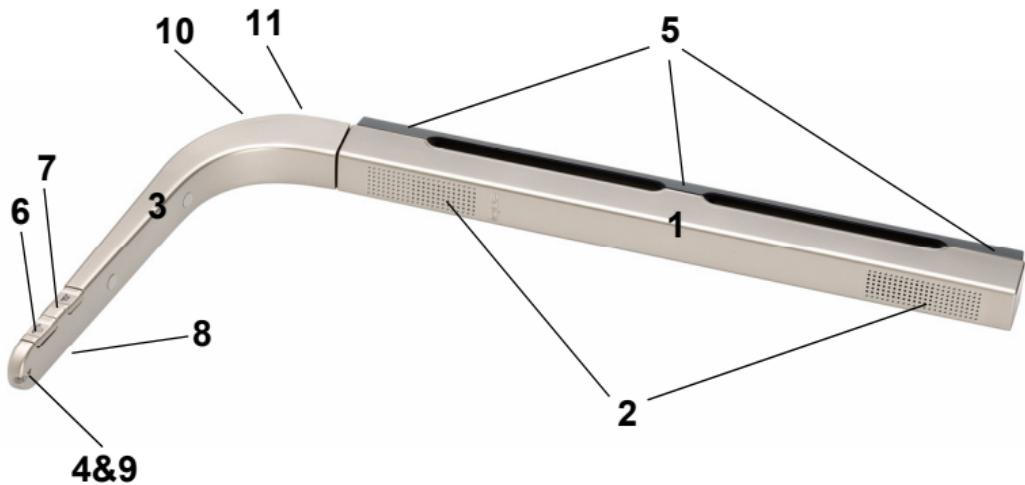

Iqua Snake 2® Headrest Handsfree can be used with any brand of Bluetooth mobile phones that supports the Headset or Handsfree profiles. For the latest compatibility information, please visit [www.iqua.com](http://www.iqua.com).

The Bluetooth word mark and logos are owned by Bluetooth SIG, Inc. and any use of such marks by IQUA is licensed. Other trademarks and trade names belong to their respective owners.

## **General Information**

Thank you for purchasing Iqua Snake 2<sup>®</sup> Headrest Handsfree. It is a stylish product that enables comfortable handsfree communication with compatible mobile phones that support Bluetooth wireless technology. It is designed for easy installation and convenient phone calls while driving. The microphone, speaker, and keys are close to you for good audio quality and easy usage. You can adjust the flexible neck according to your preference and if you want privacy, you can plug in the headset. The device can be charged with the cigarette lighter charger included in the sales package.

5. User Guide

# Getting Started

## Installation

Attach Snake 2 to the headrest of your car seat with the headrest installation piece and screws as shown in the picture. Make sure that the product is not in the operating area of any possible side impact airbags or other safety or operating equipment of your car. Also check that the product does not interfere with you operating the vehicle.

## Charging the battery

Before using Snake 2, you must charge it for approximately 6 hours. When the battery is fully charged, it provides up to 10 hours of talk time and up to 7 days of standby time.

1. Connect the charger cable to Snake 2.
2. Plug the car charger into the cigarette lighter. The red light will turn on.
3. When the battery is fully charged, the red light will turn off.

## Switching on and off

- To switch on Snake 2
- Press and hold the  button until the blue light starts blinking
- To switch off Snake 2
- Press and hold the  button until the lights turn off

## Pairing the Snake 2 and your mobile phone

Pairing is the process of linking Snake 2 with your Bluetooth-enabled mobile phone. After this process is completed, you can use the Snake 2 with this paired mobile phone. If you want to use the Snake 2 with another mobile phone, you must repeat the pairing process again. Even though Snake 2 can be paired with up to 8 compatible phones it can only be connected to one phone at a time.

1. Make sure Snake 2 is charged and turned OFF.
2. Press and hold down both the  button and the  button at the same time until you here a sound and the lights start flashing.
3. Release the buttons. Snake 2 is now in pairing mode waiting for your mobile phone to contact it.
4. Complete the pairing with your mobile phone. Please refer to the manual of your mobile phone for details on how to search and pair. When the mobile phone has found the handsfree device, the phone will show **Iqua Snake 2** on its display. In order to pair with the phone, enter the PIN code of Snake 2, which is **0000**.
5. Once pairing has been successful, you will hear a sound and the blue light will start blinking.

If pairing fails, you will hear a sound and the lights will stop blinking. Repeat the above procedures.

## **Disconnecting Snake 2 and your phone**

To disconnect Snake 2 and the phone, do one of the following:

1. Switch off the Snake 2.
2. Disconnect Snake 2 in the phone menu.
3. Move the phone more than 10 meters away from Snake 2.

## **Reconnecting the paired Snake 2 with the phone**

To reconnect Snake 2 to the last phone used, simply switch on Snake 2 and it will automatically connect to the phone. Otherwise, make the connection in the phone menu as instructed in the user guide of the phone.

# Call Functions

## Answering, ending and rejecting a call

### *Answer a call*

When there is an incoming call, you will hear the mobile phone's ringing tone through the Snake 2 speakers. To answer a call, just press the  button. The blue light turns on to indicate an active call.

### *End a call*

To end an active call, press the  button briefly.

### *Reject a call*

When you receive an incoming call that you do not want to answer, simply press the  button.

## Redialing the last dialed number

To place a call to the last dialed number, press the  button briefly twice.

## Adjusting volume

Slide the Volume slider to increase or decrease the volume.

## **Voice dialing (when supported by the phone)**

To activate the voice dialing feature of your phone, press the  button briefly once. Please refer to the user guide of your phone for details. Some phone models do not support voice dialing. For optimal performance, connect your phone with Snake 2 before recording voice tags.

## **Muting an active call**

You can mute or unmute the microphone of Snake 2 during an ongoing call by pressing the  -button briefly during the call. When your microphone is muted, Snake 2 beeps periodically. You can mute the speakers of Snake 2 by sliding the volume-slider to minimum.

## **Switching the call between phone and handsfree mode**

To transfer an active call from Snake 2 to your mobile phone, press and hold down the  -button until the call is transferred to your phone. To transfer an active call from your mobile phone to Snake 2, use the functions of your phone as instructed in its user guide.

## Light indication summary

The Snake's LED light can be either blue or red and is usually accompanied by a sound signal.

The different signals indicate:

- Blue light flashing 5 times - power is switched on/off.
- Blue light flashing every 3 seconds - power is on.
- Blue and red light flashing in turns - in pairing mode, waiting for user to complete pairing with mobile phone.
- Red light flashing every 3 seconds - low battery.
- Red light on continuously - charging the battery.
- Blue light on continuously - phone call active

Operating Range:	Up to 10 meters
Sales Package Contents:	Snake 2, LiPo battery (inserted), installation piece and screws, car charger, privacy headset, user guide, quick guide.

## Battery Information

- Do not attempt to replace the battery by yourself as it is built-in and cannot be changed.
- Do not dismantle the charger as it may expose you to dangerous voltages or other hazards.
- Please charge the device only with the chargers provided by the manufacturer.
- Incorrectly reassembling the device can cause electric shock when it is used again.
- Do not use the charger outdoors or in a humid environment.
- Avoid charging the device in extremely high or low temperatures.

Leaving the battery in hot or cold places, such as in a closed car in summer or winter conditions, will reduce the capacity and lifetime of the battery and its ability to charge. Always try to keep the battery between 15°C and 25°C (59°F and 77°F). A device with a hot or cold battery may not work for a while, even when the battery is fully charged. Battery performance is particularly limited in temperatures well below freezing.

## Care and Maintenance

- Do not expose the device to liquid, moisture or humidity as it is not waterproof.
- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.
- Do not store the device in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
- Do not store the device in cold areas. When the device returns to its normal temperature, moisture can form inside the device and damage electronic circuit boards.
- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.
- Use a soft, clean, dry cloth to clean any lenses.
- Do not expose your device to contact with sharp objects as this will cause scratches and damage.
- Do not stick anything inside the device as this may damage internal components.
- Do not attempt to take apart the device as it does not contain serviceable components.

## Correct disposal of this product

(Applicable in the European Union and other European countries with separate collection systems)

This symbol, shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent harming the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office for details on where and how they can take this item for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

## **12 MONTH LIMITED WARRANTY**

IQUA Ltd. guarantees that this product is free from material and workmanship defects for a period of twelve (12) months (unless stated otherwise) from date of purchase, provided the following terms of this warranty are satisfied. This warranty only applies to the original owner of this product.

1. The purchaser must be able to proof the purchase by presenting the original sales receipt describing the product to establish the validity of the warranty claim to IQUA Ltd. at the provider of warranty service. IQUA Ltd. shall have the right to deny warranty without dated proof-of-purchase. Any evidence of alteration, erasure, or forgery results in termination of the right of warranty.
2. IQUA Ltd. agrees to repair or replace without charge to the original owner any defective product under warranty.
3. IQUA Ltd. will supply replacement parts free of charge for any IQUA product under warranty upon request. Replacement or repair do not extend original warranty period.
4. This warranty is not valid for product owners who attempt to repair defective units.
5. Under Certain product liability regulations may apply to you as the owner of the Product, however under no circumstances is IQUA Ltd. liable for any indirect or consequential damages to person or property by the use of any IQUA products.
6. The warranty is not valid in case of fire, lighting, earthquake, accident, misuse, unusual physical or electrical stress or any other cause beyond normal usage and care of the product.
7. IQUA Ltd. reserves the right to make changes or improvements in design or manufacture without having any obligation to install such changes in existing and sold products. Warranty does not cover normal wear and tear of the product or the operation time of the battery.

## DECLARATION OF CONFORMITY

We, Iqua Ltd., declare under our sole responsibility, that the product, HHF-601, conforms with the provisions of the following Council Directive: 1999/5/EC.
